EXPERIENCE

Crew Chief · McDonald's

October 2023 – Present

- Led a team of 10+ crew members in a high-volume environment, maintaining service efficiency and ensuring accurate order fulfillment during peak hours.
- Resolved customer concerns and operational issues in real time, improving customer satisfaction and ensuring seamless shift operations.

PROJECTS

Open NaicGov – Project Monitoring & Budget Tracking System

April 2026 – May 2026

- Developed a full-stack project monitoring and budget tracking platform using Laravel, and MySQL, enabling real-time visibility of municipal project budgets and improving project oversight.
- Designed relational database schemas and interactive dashboards with role-based access control, streamlining budget monitoring and supporting secure multi-user collaboration.

HR & Recruitment Management System (Internship Proposed Project)

February 2026 – April 2026

- Developed a web-based HR and Recruitment Management System using Laravel, PHP, and MySQL, digitizing recruitment processes and improving employee record management.
- Engineered applicant tracking, recruitment workflow, reporting, and activity logging modules, reducing manual administrative tasks and improving recruitment efficiency.
- Conducted deployment and integration testing, identifying and resolving critical system issues prior to release, resulting in improved application stability and reliability.

LSHS Online Management Information System (Capstone Project)

February 2025 – October 2025

- Developed a centralized academic management system managing 100+ student records, automating enrollment and grade reporting processes to improve administrative efficiency.
- Implemented role-based access control and automated grade submission workflows, reducing manual data entry and improving data accuracy for administrators, teachers, and students.
